2' of fiber optics. Lightweight, and with a sleek design, it features a 2nd axis for leveling, an extra 2" for vertical adjustments, double locking system, and an oversized level. It's threaded for the company's UV light and for an available Zeiss® lens. Contact: Viper Archery Products, (740) 894-6100, www.viperarcheryproducts.com.

Determined to create a combination of a pocket knife and pliers tool in one compact unit, the engineers at **Leatherman®**

resorted back 25 years to the original design of the PST in hopes of revising the look and implementing compact functionality. The victorious result was the Skeletool™ CX, a full-size platform multi-tool that features only the most necessary tools — a premium stainless-steel blade, pliers, bit driver, and carabiner/bottle opener. Weighing a mere 5 oz., the multi-tool is the lightest on the market and belongs in every bowhunter's pack. Contact: Leatherman Tool Group, Inc., 1-800-847-8665, www.leatherman.com.

A new and improved Fast-Draw™ bow holder has hit the market at **Cherryhill Outdoors®**. The original bow holder had an elastic top strap; in the new design, the elastic has been replaced with

a rigid nylon strap, which maintains bow position better and more consistently. Clad in Mossy Oak® Break-Up™ camo, the holder is made of flexible thermoplastic rubber material. Contact: Cherryhill Outdoors, (724) 588-0113, www.cherryhilloutdoors.com.

Protect your portable treestand from theft with the Stand Guardian™ from **Fool Moon Press®**. The Stand Guardian is a 1"-thick cable that's hacksaw, ham-

mer, and bolt-cutter resistant. The core is heat-treated and coated with a smoke-tinted ElementGuard™, a rugged high-tech polymer. Contact: Fool Moon Press, Inc., 1-800-449-6645, www.stand-guardian.com.

For added comfort when stalking or

hunting from a ground blind, take a look at the new Knee Savers™ from **Trophyline® USA**. Clad in Realtree® AP, the Knee Savers feature easy on/off straps and two sets of interchangeable caps: soft rubber ones for hunting and hard plastic ones for construction work. The incorporated gel cap provides a kneecap "doughnut" for comfort, while the elastic thigh strap moves with your body for flexibility. Contact: Trophyline USA, 1-866-444-4968, www.trophylineusa.com.

Scorpion Venom™ Archery Lubricants from **Waxstar International®** will maintain and enhance the look and per-

formance of your bow. For example, the Anti-Venom String Cleaner removes dirt, wax, old lubricant, and grime from your bowstring. The Polymeric Bowstring Fluid, using the latest innovative polymeric compounds, enhances string performance and helps prevent fraying. Make sure to check out the other lubricants as well. Contact: Waxstar International, Inc., (631) 495-0806, www.scorpionvenomarchery.com.

Hanging a treestand can be an exhausting job, especially by yourself. **Pine Ridge™** has created a way to make it eas-
